## PAINTS WITH COLOR CHANGE EFFECTS

---

Stardust chameleons are mother-of-pearl based paints that offer a visual effect of double, triple or multiple color change.

This shift from one hue to another occurs depending on the observer's viewing angle. Chameleon paints are simple to apply, and guarantee a perfect color fastness against UV, heat and weather.

# EXTREM CHAMELEON PAINTS

## INTENSIVE COLOR CHANGE EFFECT PAINTS

Stardust's «Extrem» chameleon series features a **a range of very high quality paints**, paints that produce a change in color depending on the angle of observation.

Produced with **magnesium-based mother-of-pearl**, Extrem chameleons create **more saturated, more covering hues with more intense color transitions.**
