

GLITTER EFFECT

GLOSSY TRANSLUCENT VARNISH WITH SILVER GLITTER PARTICLES

Glossy translucent paint with silver colored glitter particles for a metallic effect giving objects and artworks of all kinds a refined finish. Applicable on many different surfaces such as paper, cardboard, primed canvas, wood, glass, metal, ceramics, porcelain, stone, acrylic and other paintable materials. After being applied, a thin shiny lacquer coat will show with a fine distribution of glitter particles. Further coats will lead to a higher density of particles and intensify of the effect. We recommend finishing your project with the Montana VARNISH Gloss to enhance the metallic effect. Please consider that the achieved final result will significantly be influenced by the color and gloss level of the undercoat. The glitter particles are carried in a clear base that can easily be covered with many common lacquer types. Can be combined with Montana GOLD, Montana ACRYLIC markers and conventional acrylic paints.

Example shows Glitter effect applied with a stencil on a black primed canvas.
