

MADMAXXX

MTN MAXIMO'S Crazy Brother. The 750 ml format MAXIMO range expands with MADMAXXX, a revolutionary, 25 - 30 cm wide, dense, chiseled line spray paint.

Specially designed to fill large surfaces at an unprecedented speed, MADMAXXX is also useful for painting gigantic typography, thanks to its powerful transversal line.

Controllable Power. Two components in this spray paint have been optimized to result in maximum power: the valve flow and the cap. Adjustments to the formula offer a dense paint that prevents running and drips, and it is so quick-drying that it may be repainting after seconds. Its easy-to-use valve is also suitable for outlining large shapes with precision.

In addition, the paint is 100% compatible with the rest of the Montana Colors spray paints.

750 ml · 2G “Silver Killer”
Male valve · Very high pressure

8 Colors.
