

HIGH-COVERING ABRASION PROOF METALLIC EFFECT COLORS

The Montana Metallic Effect Sprays bring state of the art paint technology to traditional metallic effect colors. Loaded with a Montana Standard cap, these cans provide excellent delivery and reliability under medium pressure output. Not only are the Montana Metallic Effect colors ideal for application on functional objects such as bikes and furniture, they can also add a metallic flare to any creative or artistic project on paper, cardboard, primed canvas, wood, glass, metal, ceramics, porcelain, stone, acrylic and other paintable materials. Made from an Acrylic-Nitro Combination base, the paint surface dries to a durable semi-gloss finish which is both hard wearing when cured (24+ hours) as well as flexible. Offering great lightfastness, the Montana Metallic Effect line can also be combined with the Montana GOLD, Montana BLACK and Montana ACRYLIC marker lines.

AVAILABLE MONTANA METALLIC COLORS:

EMC1050 Gold
