

REMOVER SPRAY

PAINT STRIPPER

Pollution free etching spray for most usual types of lacquer. Montana REMOVER Spray dissolves and removes lacquers quickly and thoroughly. Do not use on cars! Application is possible on many surfaces such as walls, clay bricks, stone, concrete surfaces, marble, asphalt, glass, metal and wooden surfaces. It becomes a gel-like consistency, to keep from running off vertical surfaces. Application on non-ferrous metals might cause discoloration. Content is ph-neutral. Available as 400ml. USE: Surfaces should be dry, clean of dust, oils and rust. Check firmness and stability of the basic color on painted grounds at an inconspicuous spot. Sensitive areas not be treated should be covered. Spray generously, let act for 10 - 15 min. Depending on quality and age of the paint to be removed, acting time can be shortened or extended up to 24 hours. Scrape off with a suitable tool. If necessary, wash off with cellulose nitrate diluent or water. On porous grounds, use a wire brush. If necessary, repeat the procedure. Before applying new paint, all REMOVER residues must be cleaned.
